Keeping up with pricing to ensure growth in market shares

42-inch LCD TV Prices by Month

iSuppli's TV Pricetrak – US TV Pricing is a monthly report covering the U.S. flat panel and microdisplay rear projection set pricing and specifications from 20 different retail outlets. Consumer research shows that pricing is one of the most critical drivers when making a television purchase decision. iSuppli's TV PriceTrak – US TV Pricing helps companies stay current with the price changes happening in the market on monthly basis and help with product pricing as well as placements. Due to the dynamic nature of the television market and with new model introductions and prices changing everyday, it is critical to track this market more regularly.

Subscription to this service provides monthly pricing information and specifications for more than 3,000 television models available in the U.S. market. Each month the current and past months' pricing information is given as well as the specifications of newly introduced models will be added.
